Italy

From October 26-28, 2005, the Annual Meeting of the Europe Chapter was in Orbassano, near Turin, Italy. This book is published on the occasion of that meeting and contains contributions based on presentations that were given. All papers were peer-reviewed, and unfortunately, on the basis of the reviews we had to reject a handful of contributions. The remaining papers were regrouped into five categories; Surface Transportation Safety, Aviation, Evaluation and Validation, Adaptive Automation and Visual Attention, and Design. A big thanks to Eva Fabriek for her illustrations for each of these chapters, and for illustrating the cover.

We are indebted to the Regione Piemonte that helped making the conference possible. We would like to thank our host, the Centro Ricerche Fiat for its support and hospitality. The conference was also supported by the European Office of Aerospace Research and Development of the USAF, under Award No. FA8655-05-1-5047. Finally we have to mention the Società Italiana di Ergonomia that sponsored the event. We are very grateful to all for their contributions.
